Using these numbers, please find the following of each group and then all together.

This means you will have 5 sets of answers.

- 1) Mean, Median, Mode, and Standard Deviation. (round to two decimal places)
- 2) Draw a Normal Distribution using the mean and standard deviation of all of them together.
- 3) Once you have all of these numbers, each person in your group needs to log in to classroom.google.com and fill in the answer sheet.

\* You will have a couple of days to do this, but don't wait two days to get it started.
